

(a)

Arabidopsis thaliana TAIR10    Zea mays RefGen\_V4

(b)

Arabidopsis thaliana TAIR10    Zea mays RefGen\_V4

**Figure S5.** Chromosome synteny between *A. thaliana* and *Z. mays*. (a) Analysis of synteny between genomes. The colored lines link collinearity blocks that represent syntenic regions identified by GENESPACE. (b) Gene alignment between chromosome 3 of *A. thaliana* and chromosome 1 of *Z. mays*.
