

**Table 2.** The content of isoflavones in nutrient medium (mg/100 mL) and dry matter (mg/g) of *Genista tinctoria* after application of  $\text{NH}_4\text{VO}_3$  (10  $\mu\text{M}$ ) alone for 24 hours. The values were used for a comparison with specific inhibitor in one passage of cell culture.

|                 | Inhibitor                       | Genistin         | Genistein       | Biochanin A     | Daidzein        | Formononetin    |
|-----------------|---------------------------------|------------------|-----------------|-----------------|-----------------|-----------------|
| Nutrient medium | NH <sub>4</sub> Cl              |                  |                 |                 |                 |                 |
