

**Supplementary Table 1: UK publicly-available policies, reports and best practice guidelines regarding Nutrition and Hydration care in care homes**

Funding type	Organisation	Title	Date	Setting	Summary
Charity	Age UK (West Cumbria)	Target: Well-being Nutrition Scoping	2009	care homes	Nutrition Scoping exercise in Northwest Cumbria Community Research Service to find the most recent and relevant documents concerning nutrition-related practice for older people in care homes.
Charity	Age UK	My Home Life, Issue 18	2016	care homes	Mealtimes are a big part of everyone's day and food is a subject everyone loves to talk about. Eating and drinking well is an important part of keeping healthy and happy. The way food is offered, how and where it is served and the choices that are given make a real difference. Sometimes the smallest things have the biggest impact. This bulletin captured lots of ideas from care homes around the UK to share.
Charity	BAPEN	Nutrition Screening Surveys in Care Homes in England	2015	care homes	Summarises findings of 4 surveys of UK hospitals, care homes and mental health units between 2007 and 2011. The surveys aimed to establish the prevalence of 'malnutrition' in the different care settings, to document current screening practice and identify problems that needed addressing and to provide feedback to local centres. This report is based on the amalgamated data from the UK care homes that participated in the four surveys, providing new information on the trends in nutritional care over time.
