

Supp Figure S1: Primary vs metastatic pNET CMA Results

Supplementary Figure S1: Copy number alteration profiles of primary and metastatic pancreatic neuroendocrine tumors. Blue indicates copy number gain. Red indicates copy number loss. CMA = chromosomal microarray. miRNA = microRNA. CNA= copy number alteration. pNET= pancreatic neuroendocrine tumor. sbNET = small bowel neuroendocrine tumor.

Supp Figure S2: Primary vs metastatic sbNET CMA Results

Supplementary Figure S2: Copy number alteration profiles of primary and metastatic small bowel neuroendocrine tumors. Blue indicates copy number gain. Red indicates copy number loss.
miRNA = microRNA CNA= copy number alteration sbNET= small bowel neuroendocrine tumor
